

2024 INTERNATIONAL CORPS MEMBER (JUNE - NOVEMBER)

ABOUT EARTHCORPS:

EarthCorps is a Seattle-based nonprofit organization with a mission to build a global community of leaders through local environmental service. EarthCorps' Corps Program is an intensive training and service opportunity. We unite young adults (age 18-28) from across the United States and around the world to learn skills in team building, habitat restoration, and leadership. EarthCorps program participants are part of a diverse group of emerging environmental leaders committed to teamwork, service, and personal growth.

POSITION SUMMARY:

The international Corps Member position with EarthCorps is a 6-month service learning experience for non-U.S. citizens, which takes place in Seattle, Washington, USA. Young environmental leaders from countries outside the United States will join US AmeriCorps Members to develop skills in environmental service, community building and leadership. International Corps Members are sponsored by EarthCorps on a J-1 Trainee visa.

This is not a classroom or workshop. Corps Members spend 80% of their time in the field engaged in environmental restoration projects throughout the Puget Sound region of Washington State. Restoration is physically demanding and takes place outdoors in all weather conditions.

DUTIES AND RESPONSIBILITIES:

FIELD SERVICE (80% of program from June - September)

Corps Members work on a crew of 5-7 young adults performing environmental restoration. A Crew Leader guides the crew as they complete restoration projects throughout the Puget Sound region (in urban, suburban, and rural settings).

Project Implementation: Corps Members are responsible for the efficiency of accomplishing projects and the quality of the final product under supervision from project staff. Corps Members and staff are responsible for the safety of themselves, their fellow workers, and members of the public who may be involved with projects.

Field Service Projects (percentages are approximate and subject to change):

- Invasive plant removal (manual) 35%
- Invasive plant control (herbicide) 10%
- Native plant installation (planting) 15%
- Restoration site maintenance 15%
- Trail construction/maintenance 15%
- Volunteer management 8%
- Erosion control 2%

Multiple camping trips (typically in the summer months, from 3 to 10 days per trip)

Restoration is physically demanding service that takes place outdoors in all weather conditions. Service regularly involves

- Long days of repetitively shoveling, digging, and swinging heavy tools,
- Heavy lifting up to 50 lbs. (22.5 kg) and bending,
- Working, eating, and living in the outdoors in all weather conditions
- Walking on steep or uneven terrain up to 8 mi. (13 km) while carrying 40 lbs. (18 kg) of weight
- Working in extremes of heat or cold

Please consider the nature of the work prior to applying and let us know if you have any specific questions or concerns.

TRAINING & WORKSHOPS (20% of program from June - November)

LOCAL RESTORATION | GLOBAL LEADERSHIP

6310 NE 74th Street, Suite 201E Seattle, WA 98115 phone 206.322.9296 fax 206.322.9312 www.earthcorps.org

Corps Members participate fully in retreats, workshops, and field trainings. These sessions provide skills and context for the restoration work that Corps Members complete. Topics covered include environmental restoration theories and concepts, natural resource management and global environmental issues, basic botany and ecology of the Pacific Northwest, leadership skills, and interpersonal and cross-cultural communication. Outcomes for each theme include:

Habitat Restoration:

- Understanding of Best Management Practices of ecological restoration
- Exposure, knowledge and skill in the restoration and conservation field
- Exposure to PNW restoration industry and local environmental network
- Modeling of effective pace, quality, and quantity to fit environmental industry standards

Community building:

- Creating a strong internal community
- Working in a multi-cultural community
- Exposure to local PNW community and issues

Leadership:

- Leading in a diverse, multi-cultural setting
- Leading a variety of community environmental restoration events
- Understanding of leadership theory and personal style

Corps Member Education & Training (in workshops and/or in the field) includes:

- Pacific Northwest Natural History
- Ecological Restoration Overview
- Watershed and Vegetation Management
- Urban Forestry
- Volunteer Event Management
- Diversity Training
- Cross-Cultural Communication
- Safety: Field Health & Safety, Risk Mgmt., Site Safety, First Aid, CPR, Driving
- Leadership Skills & Practices
- Performance Evaluations
