YOUR SPONSORSHIP SUPPORTS A HEALTHY WORLD FOR ALL OF US

From city parks to backcountry trails, and everywhere in between, EarthCorps works to restore and steward the lands and waters of Puget Sound.

We believe that we have a collective responsibility to care for each other and nature, and that we need new ideas and boundless enthusiasm to create a better world where people and nature thrive together.

That is why our mission is to develop leaders to strengthen community and restore the health of our environment.

Our program, rooted in leadership, community, and habitat restoration, brings together young adults- “corps members”- from the US and countries around the world for a yearlong service-learning program that prepares them to tackle the pressing environmental issues of our time.

Last year, our corps members improved Puget Sound by:

- Putting 445 acres into restoration
- Planting 48,828 native plants and trees
- Building and maintaining 10,712 feet of trails
